PIF Part 1

Reminder – your login ID is your institution code.

If you are new you will have to have the ACGME reset the password so you can log in.

Part 1 of the PIF is populated with information you enter into the ADS – Accreditation Data System. Part 2 of the PIF is a word processing document that you download and save on your computer.

Please note that the Annual Update begins July 24th and is due by August 24th. Do not attempt to advance a resident or complete a preliminary resident prior to July 24th as the system will make them inactive in the case log.

Prevent timeout by periodically saving your work!

Do not leave your browser session inactive for more than 45 minutes to prevent session timeout. In order to protect the sensitive information in ADS from unauthorized viewing, ADS will time users out after 45 minutes of inactivity. If you are spending a lot of time on one screen, it is always a good idea to **save your work periodically**.

Proceed to –

Program Information – update Program

Step 1: Program Address/Director Information and Step 2: Accreditation Information

Information you enter is found in section 1 of the final PIF.

Section 2a. information is entered by the ACGME. The residency program cannot change this information.
