

Accurately and Efficiently Reviewing Resident Milestones

Terri Mead, Lori Bybee, Daniel Vargo, MD,
and William Peche, MD

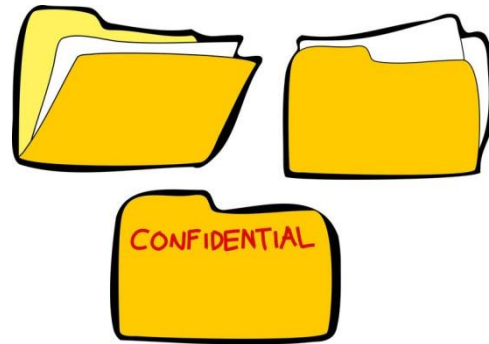

Disclaimers

- None

Rationale

- To gather all pertinent data into one area on each resident to assist the Clinical Competency Committee (CCC) in their review of the milestones.

To go from this

To a single electronic file

Data Gathering

- Accurate

- Comprehensive

- Measurable

Reviewing

- Efficiently reviewing the data, no more

- This allows for full discussion on each Resident and extra time on those who may have issues

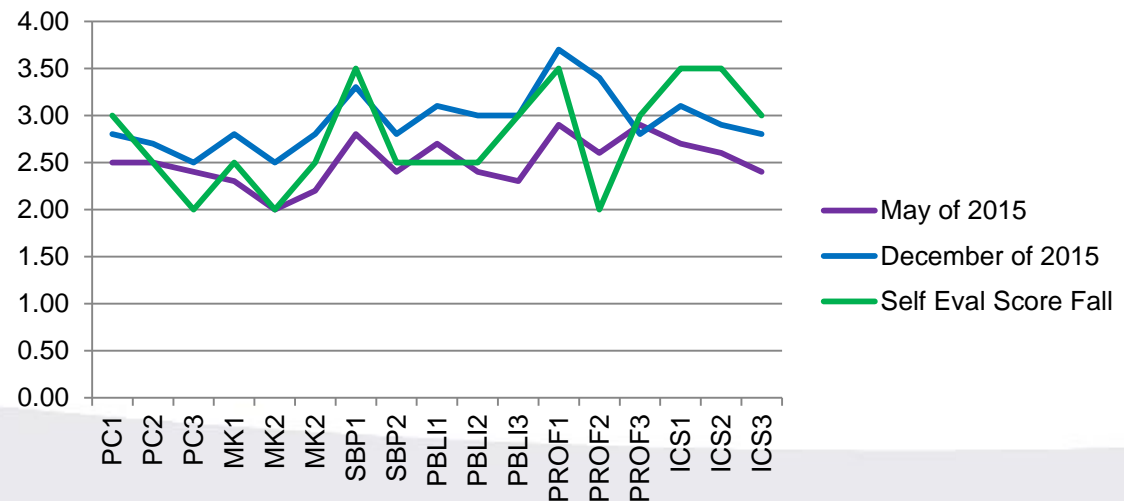

- Items reviewed are
 - ABSITE Scores
 - Scholarly Activity
 - Case Logs Compliance
 - Duty Hours Compliance
 - Evaluation Completion Compliance
 - Milestones – including a Self Evaluation
 - Comments from Faculty about the Resident

Comparative Data

- All ABSITE Scores are listed for all years taken
- Case Log, Duty Hours, and Evaluation Completion data from previous CCC is compared to current data
- Milestone Scores are compared and graphed out to show progress during the year

Success

- One Excel Sheet for all Residents
- Having the CCC confer and score Residents at one time completes the process more efficiently
